

WAYS CLUBS CAN SUPPORT RETHREADED

DONATE MONEY

Our survivors have changed the way they speak about themselves and are engaging in the community in powerful ways as advocates and business women.

They are changing the culture in our city around human trafficking. These women have been given the support they need through the Survivor Advocate Program. Help more women achieve the support they need to transition to a new life. Your investment provides survivors with case management, mental health counseling, crisis counseling, weekly classes, and weekly check-ins. It is where employment and empowerment meet and amazing results happen. Your investment is extremely important to the empowerment of Survivors and to help them discover and soar to the path of success.
